

# OUTDOOR LIGHTING

# IRBY CONSTRUCTS, INSTALLS, INSPECTS, UPGRADES AND MAINTAINS ELECTRIC POWER INFRASTRUCTURE.

Irby crews bring extensive electric power infrastructure experience to outdoor lighting projects. We can install or retrofit all lighting types and styles including: decorative, premium and conventional street and parking lot lighting.

Our scope of services for this specialized sector include:

- New installations—overhead and underground
- Maintenance and troubleshooting on all types of existing lighting systems
- Street lighting design
- Retrofitting existing HPS (high pressure sodium) or MH (metal halide) systems to LED
- Value engineering

## TAKING OUTDOOR LIGHTING TO NEW HEIGHTS.

Absolute Performance is our promise and that includes working safely and efficiently while delivering projects on time. Investor-owned utilities (IOUs) or municipalities looking for energy-saving, esthetically pleasing options call on Irby Construction to provide solutions. Facility Managers in need of professional crews that can take lighting solutions to the highest heights look no further than Irby. We have the manpower, equipment, and geographic reach to serve virtually any outdoor lighting need.
